Adjustment History Missing

Troubleshooting · https://atsfleetmanagement.com/docs/adjustment-history-missing/

Description

This issue occurs when previously entered adjustments no longer appear within adjustment history or reporting screens.

Possible Causes

- Reporting period filters
- User permissions
- Adjustment deleted
- Data synchronization issues
- Archived records

Resolution

1. Verify reporting period filters.
2. Review archived records.
3. Confirm adjustment ownership.
4. Review audit logs if available.
5. Contact support if records cannot be located.
