Asset Management

How-To Videos · https://atsfleetmanagement.com/docs/asset-management/

Description:

Learn how Asset Management in the Advanced IFTA Solution helps you maintain a complete and organized record of your fleet equipment. This video walks through how both tractors and trailers are entered, tracked, and managed within the system. See how assigning assets to trips and operations improves mileage accuracy, supports compliance reporting, and ensures your IFTA data reflects real-world fleet activity. With centralized asset tracking, managing your equipment becomes simpler, more consistent, and fully audit-ready.
