Audit Package Missing Fuel Receipt Images

Troubleshooting · https://atsfleetmanagement.com/docs/audit-package-missing-fuel-receipt-images/

Description

This issue occurs when audit packages generate successfully but do not include uploaded fuel receipt images.

Possible Causes

- Receipt images not uploaded
- File corruption
- Audit export configuration
- Missing attachment references

Resolution

1. Verify receipt images exist.
2. Review fuel transaction attachments.
3. Regenerate the audit package.
4. Confirm export settings.
5. Upload missing receipts if necessary.
