Bulk Fuel Withdrawal Assigned to Wrong Vehicle

Troubleshooting · https://atsfleetmanagement.com/docs/bulk-fuel-withdrawal-assigned-to-wrong-vehicle/

Description

This issue occurs when bulk fuel transactions are allocated to the wrong vehicle, impacting fuel reporting and MPG calculations.

Possible Causes

- Data entry error
- Incorrect vehicle selection
- Bulk fuel reconciliation issue
- Driver reporting mistake

Resolution

1. Review bulk fuel transactions.
2. Verify vehicle assignments.
3. Correct transaction records.
4. Reconcile fuel inventory.
5. Regenerate reports.
