Exception Report Missing Vehicles

Troubleshooting · https://atsfleetmanagement.com/docs/exception-report-missing-vehicles/

Description

This issue occurs when one or more vehicles expected to appear on an Exception Report are missing from the report output.

Possible Causes

- Vehicle filtered from report
- Vehicle inactive
- Reporting period mismatch
- Missing vehicle assignments
- Report generation settings

Resolution

1. Verify report filters.
2. Confirm vehicle status.
3. Review reporting dates.
4. Verify vehicle assignments.
5. Regenerate the Exception Report.
6. Compare against fleet records.
