Exported Spreadsheet Columns Do Not Fit on Printed Page

Troubleshooting · https://atsfleetmanagement.com/docs/exported-spreadsheet-columns-do-not-fit-on-printed-page/

Description

This issue occurs when exported spreadsheets print across multiple pages or columns are cut off during printing.

Possible Causes

- Landscape mode not selected
- Scaling settings incorrect
- Wide report layout
- Printer configuration

Resolution

1. Open Page Layout settings.
2. Select Landscape orientation.
3. Choose "Fit All Columns on One Page."
4. Adjust margins.
5. Preview before printing.
