Fleet MPG Appears Unrealistic

Troubleshooting · https://atsfleetmanagement.com/docs/fleet-mpg-appears-unrealistic/

Description

This issue occurs when fleet-wide fuel economy calculations appear significantly higher or lower than expected operational averages.

Possible Causes

- Missing fuel purchases
- Duplicate mileage records
- Duplicate fuel transactions
- Vehicle assignment issues
- Incorrect gallon entries

Resolution

1. Review fuel transactions.
2. Verify mileage records.
3. Investigate High MPG Exceptions.
4. Investigate Low MPG Exceptions.
5. Correct duplicate entries.
6. Regenerate MPG reports.
