Deadhead Mileage Missing

Troubleshooting · https://atsfleetmanagement.com/docs/deadhead-mileage-missing/

Description

This issue occurs when deadhead mileage is not included in mileage calculations, reports, or compliance records.

Possible Causes

- Missing trip records
- Incorrect ELD classifications
- Import filtering
- Driver log issues

Resolution

1. Review deadhead trip activity.
2. Verify ELD classifications.
3. Compare against dispatch records.
4. Review imported mileage.
5. Add mileage adjustments if required.
6. Regenerate mileage reports.
