How Do I Report DEF Purchases?

FAQs · https://atsfleetmanagement.com/docs/how-do-i-report-def-purchases/

Overview

Diesel Exhaust Fluid (DEF) is required for many modern diesel engines but is not considered motor fuel for IFTA reporting purposes.

Important Distinction

DEF purchases:

- Are not fuel
- Are not taxable fuel
- Are not included in fuel gallon calculations

Recordkeeping

Carriers should still maintain DEF purchase records for maintenance and operational purposes.
