Filing Totals Changed Unexpectedly

Troubleshooting · https://atsfleetmanagement.com/docs/filing-totals-changed-unexpectedly/

Description

This issue occurs when filing totals differ from previously viewed totals without an obvious reason.

Possible Causes

- New data imported
- Adjustments added
- Fuel purchases modified
- Mileage records updated
- Duplicate records corrected
- Report filters changed

Resolution

1. Review recent changes.
2. Check adjustment history.
3. Verify fuel and mileage records.
4. Review synchronization activity.
5. Regenerate reports.
6. Compare totals against prior calculations.
