Fuel Purchase Appears Twice

Troubleshooting · https://atsfleetmanagement.com/docs/fuel-purchase-appears-twice/

Description

This issue occurs when a fuel transaction is displayed multiple times within reports, resulting in inflated fuel totals and inaccurate MPG calculations.

Possible Causes

- Duplicate manual entry
- Duplicate OCR processing
- Fuel card imported multiple times
- Synchronization duplication
- Transaction matching failure

Resolution

1. Review duplicate transactions.
2. Compare gallons, dates, and locations.
3. Remove duplicate entries.
4. Verify corrected fuel totals.
5. Regenerate fuel reports.
