Fuel Purchase Assigned to Wrong Driver

Troubleshooting · https://atsfleetmanagement.com/docs/fuel-purchase-assigned-to-wrong-driver/

Description

This issue occurs when a fuel transaction is associated with the wrong driver, potentially affecting driver reporting and audit documentation.

Possible Causes

- Incorrect driver selection
- Shared vehicle usage
- Manual entry error
- OCR assignment discrepancy
- Driver account mismatch

Resolution

1. Review fuel transaction details.
2. Verify the driver who made the purchase.
3. Update the transaction assignment.
4. Save changes.
5. Verify reports reflect the corrected information.
