Fuel Purchase Assigned to Wrong Vehicle

Troubleshooting · https://atsfleetmanagement.com/docs/fuel-purchase-assigned-to-wrong-vehicle/

Description

This issue occurs when a fuel purchase is linked to an incorrect vehicle, causing inaccurate MPG calculations, fuel tax reporting, and exception reporting.

Possible Causes

- Driver selected wrong vehicle
- Manual entry error
- Vehicle change not recorded
- OCR assignment error
- Fuel card assignment issue

Resolution

1. Review the fuel transaction details.
2. Verify the correct vehicle.
3. Edit the transaction and reassign the vehicle.
4. Regenerate fuel reports.
5. Review MPG calculations after correction.
