Fuel Receipt Date Incorrect

Troubleshooting · https://atsfleetmanagement.com/docs/fuel-receipt-date-incorrect/

Description

This issue occurs when the date recorded for a fuel purchase differs from the actual fuel transaction date shown on the receipt.

Possible Causes

- OCR recognition error
- Manual entry mistake
- Incorrect receipt image
- Receipt formatting issues

Resolution

1. Review the original receipt.
2. Verify the fuel purchase date.
3. Correct the transaction date.
4. Save changes.
5. Regenerate reports if necessary.
