Fuel Tax Credit Lower Than Expected

Troubleshooting · https://atsfleetmanagement.com/docs/fuel-tax-credit-lower-than-expected/

Description

This issue occurs when fuel tax credits appear lower than anticipated during tax calculations or quarterly filing preparation.

Possible Causes

- Missing fuel purchases
- Missing fuel receipts
- Duplicate mileage
- Incorrect state mileage allocation
- Missing bulk fuel transactions

Resolution

1. Review all fuel purchases.
2. Verify receipt uploads.
3. Review jurisdiction mileage allocations.
4. Reconcile fuel card transactions.
5. Review Exception Reports.
6. Regenerate tax calculations.
