How Are Deadhead Miles Treated?

FAQs · https://atsfleetmanagement.com/docs/how-are-deadhead-miles-treated/

Overview

Deadhead miles occur when a vehicle travels without a load.

Common Examples

- Traveling to pick up freight
- Returning after delivery
- Repositioning equipment

Reporting Requirements

Deadhead miles must generally be included in total mileage calculations.

Why They Matter

Excluding deadhead miles can result in inaccurate fleet MPG calculations and potential audit issues.
