What Are IFTA Adjustments?

FAQs · https://atsfleetmanagement.com/docs/what-are-ifta-adjustments/

Overview

IFTA adjustments are corrections made to reported mileage, fuel purchases, or other filing information when errors, omissions, or discrepancies are discovered.

Common Adjustment Types

- Missing mileage
- Missing fuel purchases
- Incorrect state mileage
- ELD data errors
- Duplicate records
- Fuel receipt corrections

Why Adjustments Matter

Adjustments help ensure that reported information accurately reflects fleet operations and supports compliance requirements.

Advanced IFTA Advantage

Adjustments entered into Advanced IFTA are automatically reflected in reports and quarterly calculations.
