How Does Advanced IFTA Support Overall Compliance?

FAQs · https://atsfleetmanagement.com/docs/how-does-advanced-ifta-support-overall-compliance/

Overview

Advanced IFTA is designed to become a centralized compliance platform that helps carriers manage multiple regulatory programs from a single system.

Current Features

- IFTA reporting
- ELD integration
- Mileage Calculator
- Adjustments
- Exception Reports
- Audit readiness tools

Future Features

- IRP management
- 2290 tracking
- New York HUT
- State mileage taxes
- MCS-150 monitoring
- Compliance alerts

Benefits

A single platform reduces administrative workload and improves compliance visibility.
