# What is a Qualified Motor Vehicle?

FAQs · https://atsfleetmanagement.com/docs/what-is-a-qualified-motor-vehicle/

## Overview

A Qualified Motor Vehicle (QMV) is the official term used by IFTA to identify vehicles subject to fuel tax reporting requirements.

## Qualification Criteria

A vehicle is generally considered a QMV if it:

- Has three or more axles
- Exceeds 26,000 pounds GVW
- Operates in multiple jurisdictions

## Why This Matters

Determining whether a vehicle qualifies affects licensing requirements, reporting obligations, and audit responsibilities.
