IRP Exception Specifications

Exception Reports · https://atsfleetmanagement.com/docs/irp-exception-specifications/

Overview

The IRP Exception Specifications document provides detailed definitions, calculation methods, thresholds, and corrective action procedures for exceptions related to International Registration Plan (IRP) reporting and fleet registration compliance. This guide serves as the official reference for understanding how IRP exceptions are identified, what conditions trigger them, and the actions required to resolve potential registration and mileage reporting issues.

By proactively monitoring IRP exceptions, carriers can improve mileage accuracy, maintain proper apportioned registrations, reduce audit exposure, and avoid registration penalties, renewal delays, and compliance violations.

Key Topics Covered

✔ Missing Jurisdiction Mileage Exceptions

✔ Unreported State Operations

✔ IRP Mileage Variance Exceptions

✔ Vehicle Registration Expiration Alerts

✔ Fleet Registration Renewal Exceptions

✔ Vehicle Added Without Registration

✔ Vehicle Removed Without Proper Reporting

✔ Mileage Allocation Discrepancies

✔ Apportioned Registration Exceptions

✔ Distance Reporting Anomalies

✔ Fleet Audit Risk Indicators

✔ Recommended Resolution Procedures

Benefits

By utilizing this specification guide, carriers can:

- Understand how IRP exceptions are generated
- Improve apportioned registration accuracy
- Identify mileage reporting discrepancies
- Reduce registration-related compliance risks
- Prevent renewal delays and penalties
- Strengthen audit preparedness
- Standardize exception investigations
- Improve fleet compliance management
