What is the Mileage Calculator?

FAQs · https://atsfleetmanagement.com/docs/what-is-the-mileage-calculator/

Overview

The Mileage Calculator is a tool within Advanced IFTA that calculates state-by-state mileage for trips that were not captured by an ELD or other mileage tracking system.

Purpose

The tool helps carriers:

- Recover missing mileage
- Reconstruct trips
- Calculate state miles
- Maintain accurate IFTA records
- Prepare for audits

Common Uses

- ELD failure
- Missing trip records
- Rental vehicles
- GPS outages
- Driver logging errors
