What Records Are Required During an IFTA Audit?

FAQs · https://atsfleetmanagement.com/docs/what-records-are-required-during-an-ifta-audit/

Overview

During an IFTA audit, carriers must provide documentation supporting all mileage and fuel purchases reported on their quarterly returns.

Common Records Requested

Mileage Records

- ELD reports
- Driver logs
- Trip reports
- GPS data
- State mileage summaries
- Route calculations

Fuel Records

- Fuel receipts
- Fuel card statements
- Bulk fuel records
- Fuel purchase summaries

Filing Records

- Quarterly IFTA returns
- Tax payments

- Adjustments
- Exception reports

Why These Records Matter

Auditors use these records to verify the accuracy of reported mileage, fuel purchases, and tax calculations.
