What Triggers an IFTA Audit?

FAQs · https://atsfleetmanagement.com/docs/what-triggers-an-ifta-audit/

Overview

Audits may be selected randomly or triggered by unusual reporting patterns and compliance concerns.

Common Audit Triggers

- Missing returns
- Consistently late filings
- Unusual MPG values
- Large fuel tax credits
- Missing documentation
- Significant reporting changes
- Multiple amended returns

Important Note

Even carriers with perfect records may be selected for routine audits.
