Odometer Does Not Match Reported Mileage

Troubleshooting · https://atsfleetmanagement.com/docs/odometer-does-not-match-reported-mileage/

Description

This issue occurs when reported mileage differs significantly from odometer readings maintained by the carrier or driver.

Possible Causes

- Missing trips
- Incorrect odometer entry
- Vehicle assignment errors
- Duplicate mileage records
- ELD reporting discrepancies

Resolution

1. Compare odometer readings against reported mileage.
2. Review trip history.
3. Verify ELD imports.
4. Investigate missing trips.
5. Correct reporting discrepancies.
6. Document any adjustments made.
