Route Mileage Differs from Drivers Actual Route

Troubleshooting · https://atsfleetmanagement.com/docs/route-mileage-differs-from-drivers-actual-route/

Description

This issue occurs when calculated route mileage differs from the route actually traveled by the driver.

Possible Causes

- Alternate route selected
- Road closures
- Missing stops
- Driver route deviation
- Mapping service differences

Resolution

1. Compare calculated route to actual route.
2. Review GPS history.
3. Add missing stops.
4. Recalculate mileage.
5. Create supporting adjustments if necessary.
