System Overview

How-To Videos · https://atsfleetmanagement.com/docs/system-overview/

Description:

Welcome to the Advanced IFTA Solution, a complete fuel tax reporting and fleet compliance platform designed specifically for today's trucking industry. Whether you operate a single truck or manage an entire fleet, the Advanced IFTA Solution simplifies quarterly IFTA reporting by automatically importing ELD data, calculating state mileage, tracking fuel purchases, identifying reporting exceptions, and generating accurate IFTA tax reports in just minutes. With powerful dashboards, built-in audit tools, mileage adjustments, route calculations, and a growing suite of compliance features, our goal is to save you time, reduce costly errors, and keep your fleet compliant. In this video, we'll give you an overview of the system and show you how easy it is to manage your IFTA reporting from start to finish.
