What is an Exception Report?

FAQs · https://atsfleetmanagement.com/docs/what-is-an-exception-report/

Overview

An Exception Report identifies unusual conditions, discrepancies, or potential compliance issues within fleet operations and reporting data.

Purpose

Exception Reports help carriers:

- Identify reporting errors
- Detect missing data
- Improve accuracy
- Reduce audit exposure
- Correct issues before filing

Why It Matters

Many compliance issues are easier and less expensive to correct before returns are submitted.

Advanced IFTA Advantage

Advanced IFTA automatically analyzes reporting data and generates exception alerts for review.
